Hiring Manager
Questronix Corporation

26 September 2024

Dear Hiring Manager,

I am writing to apply for the Software Engineer Trainee position at Questronix Corporation. I recently completed my studies in Information Technology at Phinma Araullo University, and I am excited about the opportunity to begin my career with a company known as a leading IT solutions provider and systems integrator in the Philippines.

During my studies, I developed a foundational understanding of programming and software development concepts, with basic working knowledge of Python. I am a fast learner who is eager to grow these skills on the job, and I am comfortable using version control tools such as Git for collaborative development.

I am drawn to this trainee program because it offers hands-on experience working alongside experienced developers on real projects, which I believe is the best way to strengthen both my technical skills and my understanding of industry best practices. I am motivated, enthusiastic about learning new technologies, and committed to writing clean, maintainable code as part of a collaborative team.

I would welcome the opportunity to discuss how my background and enthusiasm can contribute to your team. Thank you for considering my application. I look forward to the possibility of speaking with you further.

Yours faithfully,

Deniel Benedict M. Ronquillo
